### **MINUTES OF THE MEETING HELD ON 4<sup>th</sup> NOVEMBER 2024 APARIS VILLAGE**

#### **Agenda**

1. Prayer
2. Introduction of members
3. Formation of the Organization
4. Reactions
5. Closure

#### **Min. 01/4/11/2024: Prayer**

The meeting was opened by the word of prayer by Isale Martin.

#### **Min. 02/4/11/2024: Introduction of members**

Self introduction was done as the members arrived making a good response to attend the meeting.

The invitation was carefully done guided by the approvals and recommendations by the local community leadership, (Papa Okello Silver). a Very instrumental, useful elder who worked with Kumi Local Government Administration Currently church elder and community advisor on development programs.

#### **Min. 03/4/11/2024: Formation of Community Based Organization (CBO)**

The idea of forming a Community Based Organization was introduced by Papa Okello Silver who mobilized his community to help address extreme poverty, the mukura massacres, orphans, widows and post Teso war Victims (LRA killings) of 1986 – 2000 challenges facing majority of people living in the affected Aparis villages with the following concerns;

1. Majority of vulnerable and orphaned Children were not at school
2. There was poor latrine coverage, a serious health concern.
3. The problem of HIV/AIDS and Malaria was very high, causing death (pregnant women and children, disabled and elderly).
4. Poverty is very common in almost every household in the affected villages / target community
5. Poor coverage of clean source of water causing water borne diseases.

As a result, all the members thought it very important to come up with a plan that will help rescue the community from the above mentioned problems. They suggested that this was only possible if we take up this initiative to help solve identified problems in the target community.

The Chairman asked the members present to give their own views regarding forming a community based organization in the following themes:-

- a. Education – OVCs, School Dropouts, Household Poverty.
- b. Health – malaria and HIV/AIDS, lack of clean water sources.
- c. Environment – climate change and Global warming effects.

#### **Min. 04/24/05/2015: Reactions**

There was a general opinion and agreement from all the members present that there was no local intervention or active organization formed by the people of the Aparis community to help to improve the situation at hand.

One member (Papa Okello Silver) observed in particular that the target community had a lot of needy / hopeless children/youth who are unable to go to school reason that the guardian (widows and elderly) were not able to provide simple basics such as books, pens, uniform, pencils so he said that the idea will help give these children future.

He added that the places where they go to pick water were swamps and during rainy season there was a high rate of sick people in the community. He added that the Aparis community is losing a lot of young people (energetic youth) to HIV/AIDS, drugs, alcohol and Malaria, heavily affecting the development of this area.

The Chairman therefore requested to know if all the members were willing to endorse this idea (forming CBO) by show of hands.

It was a general view from all present that this was a good idea and will help generations to come so they all agreed to append their signature as a self commitment to form the project called – **Aparis - Community Development Program (CDP)**

The chairman asked the members for coming up with a suitable name for the organization. He appreciated them for taking matters serious especially regarding its society economic problems.

**Min. 05/4/11/2024: Closure**

Mr. Olupot Charles, The Project Leader and Chairman thanked members for the initiative and asked them to work together if they want to realize the positive development in their community.

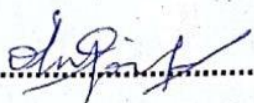

He acknowledged the initiative as very vital and good for making the future for the target groups (OVC's) and promised to use his wider network of development partners (Global GIVING Organization) to share the concerns registered.

Our CBO working with and hosting international volunteers will help improve our community by working with locals to address issues like education, healthcare and social inclusion. eg.

1. Helping underprivileged children, teachers in local schools
2. Running youth empowerment programs, skills for self reliance.
3. Helping with health care projects
4. Coaching youth in sports and games
5. Working on construction projects for schools, medical clinics, and clean water
6. Host International Volunteers, Tourist interested in teaching English, skills to school dropouts.

He wished the organization and all its new membership a good beginning and good implementation of the activities planned to promote quality education. Health and environment in target groups / Community in Paris.

A closing prayer was said by Okiring Vincent and the meeting ended at 5:00 pm.
